Ballari, Karnataka, India

Career Objective

Motivated and enthusiastic third-semester engineering student with a strong interest in programming, software development, and emerging technologies. Seeking opportunities to apply technical knowledge through real-world projects, internships, and collaborative problem-solving while continuously developing professional and technical skills.

Education

Bachelor of Engineering (B.E.) [Ballari Institute Of Technology and Management] <i>Currently in 3rd Semester, CGPA:9.45</i>	2025 – Present
Pre-University / 12th Grade [Sri Chaitanya Girls PU College] Ballari, Karnataka, India Percentage: 90%	2023 – 2025
SSLC / 10th Grade [Little Flowers' High School] Ballari, Karnataka, India Percentage: 92%	2023

Technical Skills

Programming	C, Python, Java
Web Technologies	HTML, CSS, JavaScript
Libraries / Tools	NumPy, Pandas, Matplotlib, Scikit-learn
Development Tools	Visual Studio Code, Git, GitHub
Database	MySQL / SQL
Other Skills	Problem Solving, Debugging, Basic Data Analysis

Relevant Coursework

Programming in C	Python Programming
Object-Oriented Programming	Data Structures
Database Management Systems	Computer Networks
Artificial Intelligence	Machine Learning

Projects

Heart Disease Risk Prediction System	<i>Python</i>
- Developed a machine-learning based system to predict the risk of heart disease using selected health-related input parameters. - Implemented data preprocessing and analysis using Pandas and NumPy. - Used Logistic Regression for classification and evaluated the model using accuracy, classification report, and confusion matrix. - Created graphical visualizations using Matplotlib to understand patterns in the dataset.	
Electricity Bill Generator	<i>C / Python</i>
- Developed a program to calculate electricity bills based on predefined consumption slabs. - Implemented conditional statements and arithmetic operations to calculate the final bill.	

Achievements & Activities

- Participated in technical workshops and academic activities.
- Completed academic projects involving programming and machine learning.
- Actively developing programming and problem-solving skills through hands-on practice.
